

TaxiCaller Driver App

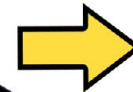

Available on Android and iPhone. Free for download from Google Play and the App store.

No Hardware lock in

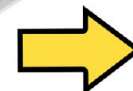

The in-car software runs on Android and iPhone devices. Just search for "TaxiCaller driver" to download the app for free.

*Currently our main platform is Android but iOS is available.

In-app Navigation

Using the GPS of the device, our app provides street mapping and step-by-step navigation to the pickup and drop off locations.

Alarm Button

The alarm feature lets the driver alert the dispatch central in case he or she is being threatened. It's discrete, silent and unnoticeable by the passenger.
