

# Driver App Features

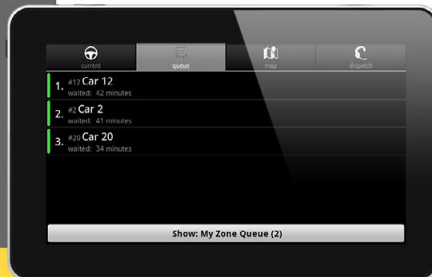

## Incoming Jobs

- Ringtone notification for newly assigned jobs.
- Tone stops when the driver accepts or declines the job.
- Declined jobs can be offered to other drivers, based on your settings.

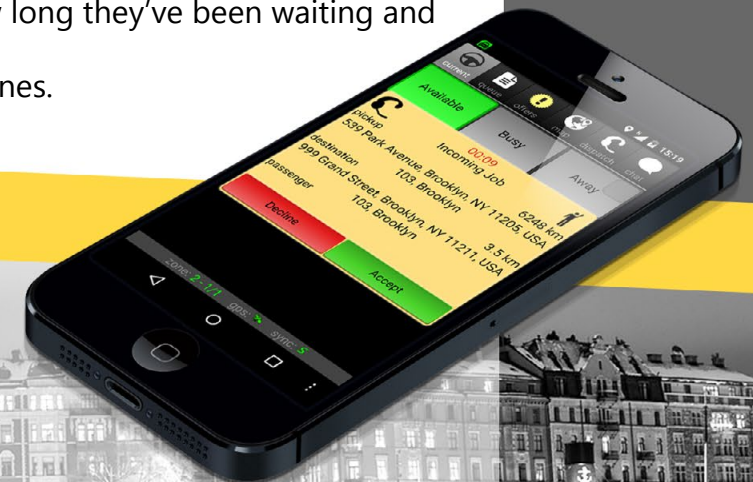

## Map

- Displays vehicle location.
- Pickup point of passenger (green flag).
- Destination (chequered flag).
- Route (blue line) using the GPS of the device.
- Step-by-step navigation also available.

## Zones

- Divide pickup area into zones for automatic assignment priority.
- See how many cars are in a zone, how long they've been waiting and their status.
- Drivers can then move to less busy zones.
